Spring Collection 2022

cover: blouse 2s2749-11617C1, trousers 4s2252-11668C1

Secret Garden

— SPRING '22 —

Spring is here, suddenly love is in the air and you want to share that joy with everyone around you. This is the season to celebrate life by being happy with who you are and to feel the urge to look beautiful and stylish in the process.

The joy and freshness of this new season is reflected in the colour scheme. It is a positive palette with juicy shades such as peach and tangerine, true mood boosters such as refreshing reef green and tasty tones such as bubble gum and vanilla. Styles are loose and comfortable, and always refreshing thanks to the bright shades and prints. Just look at that bubble gum pink suit or the vanilla crocheted jumper with fringing.

There's lots of attention on the legs, as we want to get out and about after all that time inside. There are lots of different trouser styles, from very wide to skinny, which you would preferably wear in a colour or print, but are also available in more subdued tones. Fabrics are light and airy, enhancing that feeling of freedom. Go outside, enjoy life and express your feelings with a collection full of energy.

The buying period takes place from the 12th July up to and including the 7th September.

Find us at these fairs:

Aarhus Fashion Week: 17th - 19th August

Who's Next Paris: 3rd - 6th September

Coterie New York: 19th - 21st September

GREEN LABEL

The below fabrics are part of this seasons GREEN label:

CMT:

11583 & 11597: 100% Viscose

This viscose fabric is made from 51% FSC-label yarns. These are the weft yarns made from wood pulp from trees grown in sustainably managed forests.

11588: 100% Viscose

The warp yarns in this viscose fabric are made from ENKA® viscose, a filament yarn made from wood comprising 40-50% cellulose - the most common organic and recyclable plant material. ENKA® uses only cellulose from wood with the FSC label sourced from local, legal and sustainably managed forests in Sweden, Finland, Estonia and Scotland. ENKA® works with a self-developed policy that promotes sustainable forest management and protects old-growth forests.

Please visit www.enka.de for more information.

11590: 63% Tencel / 37% Polyester

This material has the Tencel by Lenzing certificate. The yarn is obtained from eucalyptus wood from sustainable plantations with the FSC label. The yarn has a low ecological impact, partly because the water used in the production process is recycled. Fewer chemical products are used in this process, and those which are used are almost completely reused.

11603 & 11606: 51% Recycled Polyester / 49% Polyester

No less than 51% of the polyester yarns in this material are made from recycled polyester. Recycled polyester is made from post consumer recycled plastic such as PET bottles, making it a greener and more sustainable alternative to virgin polyester yarns. As well as shrinking the world's plastic waste mountain, the production process for recycled polyester requires less water, less use of chemicals and less energy.

11605: 54% Viscose / 46% Cotton

The viscose in this fabric is EcoVero™ viscose from Lenzing, a yarn made from wood pulp sourced from sustainable, FSC or PEFC-certified forests. The closed loop production process used to make this yarn recycles both water and solvents.

Please visit www.ecovero.com for more information.

BLUE DAZE:

5081: 98% Organic Cotton / 2% Elastane

All of the cotton in this denim fabric comes from organic cotton cultivation. The cotton was grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

5098: 50% Organic Cotton / 48% Cotton / 2% Elastane

50% of the cotton in this denim fabric comes from organic cotton cultivation. This cotton was grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

JERSEY:

30310: 95% Organic Cotton / 5% Elastane

All of the cotton in this fabric comes from organic cotton cultivation. The cotton was grown under strictly controlled conditions, without genetic modification and without the use of toxic pesticides or other harmful chemicals.

90310: 95% EcoVero Viscose / 5% Elastane

The viscose in this fabric is EcoVero™ viscose from Lenzing, a yarn made from wood pulp sourced from sustainable, FSC or PEFC-certified forests. The closed loop production process used to make this yarn recycles both water and solvents. *Please visit www.ecovero.com for more information.*

KNIT:

5640 - 7864: 100% Organic Combed Cotton

The cotton in this knit has the Global Organic Textile Standard (GOTS) certificate. GOTS guarantees pure organic cultivation of cotton and strict requirements for water saving, environmentally friendly processing of cotton under fair working conditions. Organic cotton is a more environmentally friendly and ethically responsible alternative to conventional cotton.

5643 - 7870: 75% Re-used Cotton / 20% Polyester / 5% Other

The yarn in this knit has the Global Recycled Standard (GRS) certificate. All cotton in this yarn is recovered from scraps and used cotton textiles, making the yarn more environmentally friendly compared to virgin cotton.

ACCESOIRES:

8411 - 8412 - 8413: 100% Cow Leather

All belts in this collection are manufactured in the Netherlands from leather from two Dutch tanneries. Both sites have been awarded the silver standard for sustainability by the learning working group. Local production also causes lower levels of CO2 emissions than cross-border alternatives.
